CHARITY & FUNDRAISING WEBSITE PROJECT

INTRODUCTION

This project is a group-based activity where each team will design and develop a **Charity & Fundraising Website**. The website should be interactive, well-designed, and follow modern web standards (W3C-compliant). In addition, you will deliver an oral presentation on the design and implementation of the website. The project will involve creating a functional Charity & Fundraising Website using HTML and CSS only.

QUESTIONS (CLO1, P4)

1. Construct an Interactive CHARITY & FUNDRAISING WEBSITE using HTML and CSS only.
The website **MUST** include the following features:
 - a. The website **MUST** contain at least 5 sections:
 - Home (Introduction to the charity and its mission)
 - About Us (History, vision and goals of the organization)
 - Campaigns (Showcase active charity campaigns with details)
 - Get Involved (Options for volunteering, donations and partnerships)
 - Contact Us (Provide ways to reach the organization)
 - b. The Contact Us page **MUST** contain a form with the following fields:
 - Full Name
 - Email Address
 - Subject
 - Message
 - c. The website **MUST** include:
 - Relevant images representing charity activities
 - Properly structured navigation menus
 - Appropriate CSS styling for readability and engagement

2. Storyboard Requirement:

- a. Each team is required to create a storyboard for the Charity & Fundraising Website, illustrating the layout and design choices for each page.
- b. The storyboard MUST include:
 - Visual representation of navigation flow
 - Content structure for each section (Home, About Us, Campaigns, Get Involved, Contact Us)
 - Design elements such as images, fonts, and colors

ADDITIONAL NOTES:

1. Plagiarism Warning:
 - You are NOT ALLOWED to use ready-made templates. While you can refer to templates for ideas, you are expected to create the code yourself. Copycatting and plagiarism will result in an F grade for this project.
2. Duration:
 - This project has a duration of 16 hours. Make sure you manage your time effectively to complete both the storyboard and the HTML/CSS development.

ASSESSMENT CRITERIA:

Your project will be evaluated based on the following criteria:

- Storyboard completeness and accuracy
- HTML structure and organization
- CSS implementation and consistency
- Visual design (fonts, colors, layout)
- Navigation and usability
- Browser compatibility (Google Chrome, Mozilla Firefox)
- Code quality (indentation, comments, structure)

All the Best!
